TO WHOM SO EVER IT MAY CONCERN

SUB: RECOMMENDATION LETER FOR "ITT" MAKE HYDRO-PNEUMATIC PUMPS.

This is to certify that we have engaged M/s Aquatics for the installation of ITT LOWARA made **HYDRO-PNEUMATIC** system model: 4HM9 - 2 pump system alongwith **"UPAJ"** Brand Submersible pump 1 HP & 0.5 HP in June 2010 at our site Safal Properties Developer-Safal Param.

Also installed **"UPAJ"** Brand Submersible pump 12.5 HP – 2 Nos. in September 2010 at our site Sumer Business Park-II-Safal Buildcon.

Also installed **"UPAJ"** Brand Submersible pump 5 HP in March 2010 at our site Amrakunj-Safal Estate.

The AQUATICS Teams has successfully installed the pneumatic system as well as submersible pumps at our all sites. The system is meeting the performance as per the design and specification. The pneumatic pump alongwith the submersible pump helps us providing the water through out the premises.

The AQUATICS service Team has provided full cooperation in maintenance and backup for the units since 2009. Their nature and approach is friendly and scientific. With an experienced team of efficient technicians, they have tackled all the problems, be it repair or maintenance.

Based upon the performance of the system and service provide by ITT channel partner AQUATICS, we would recommend this product to all the prospective buyers.

Thanking you,

Authorised Signatory

A. Chaturvedi
